

The Natural Edge team works with you to choose plants you will love. Native plants require less maintenance, and are loved by butterflies and other animals. This month we are highlighting all of the exciting updates from our Natural Edge team, including **new starter kits**, our **Give Bats a Home This Halloween fundraiser**, **testimonials**, and more!

New Starter Kit Now Available!

We are excited to announce the new Shoreline Re-Naturalization Starter Kit! Each kit includes: a free site visit, customized planting plan, 50 native plants, 45 coconut fibre pads, tree guards for all deciduous trees, mulch, Plant Care Guide, Habitat Creation Guide, and Wildflower Garden Guide. We will

work with you to create a plan that works for you including options for low-growing plants in areas where views are important. [Get in touch with us](https://naturaledge.watersheds.ca/contact/) at <https://naturaledge.watersheds.ca/contact/> to learn more about the Natural Edge program!

Give Bats a Home This Halloween!

This Halloween, you can provide a home for bats! Bat houses provide a place to roost and rest so they can keep doing their amazing work each night - they eat thousands of insects each night and are important pollinators. You can become a Pollinator Partner, a Bat's Best Friend, or a Bat Superhero, and help bats living right here in Eastern Ontario! [Help bats today](https://www.canadahelps.org/en/charities/watersheds-canada/events/give-bats-a-home-this-halloween/) <https://www.canadahelps.org/en/charities/watersheds-canada/events/give-bats-a-home-this-halloween/>
